

SPRINT-I

SETTING UP APPLICATION ENVIRONMENT

Install IBM Cloud CLI:

Over here after created account in the IBM cloud there are some tutorials in the dashboard. Over there, get started with CLI tutorial will appear using the documentation we'll install the IBM cloud CLI.

After clicking that tutorial, the instruction documentation page will open using those instructions to install IBM cloud CLI and also install some plugin-tools with the CLI for the work purpose while developing and deploying the Application.

Use the following Command to Install the IBM Cloud CLI:

```
iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')
```

After Installed IBM cloud CLI the PowerShell screenshot shown below:

A screenshot of a Windows PowerShell terminal window. The title bar at the top reads "Windows PowerShell". The terminal output shows the following sequence of commands and responses:

```
Windows PowerShell  
Copyright (C) Microsoft Corporation. All rights reserved.  
  
Install the latest PowerShell for new features and improvements! https://aka.ms/PSWindows  
  
aller...ers\mohans> iex ((New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell'))  
Install complete. Please restart to make the modification effective..  
PS C:\Users\mohans
```

In the upper right corner, there is a small blue rectangular notification box titled "BITS Transfer". It contains two lines of text: "[xxxxxxxxxxxxxxxxxxxxxxxxxxxxxx]" followed by "Download complete. Executing last..." on the next line.
